Who We Are?

About us: GND GROUP E.A. LTD.

GND GROUP EAST AFRICA (GND) is an innovative and value driven company with years refining its skills and competencies to deliver IT solutions from Managed IT Services, IT Infrastructure, Software Development, Business Applications Development and Creative Design.

The humble beginning started in 2014 with a small team in Dar es salaam and grown into Kenya with a fully fledged team of experienced professionals. We have strategically invested in our partnership with renowned brands and vendors.

We work collaboratively with your key stakeholders and listen carefully to their unique set of challenges and objectives. From there, we establish a strategy that reflects your company or institution's culture.

7 Years of Business In East Africa

Over 20 years Combained Team Experience

Over 50+ Successful Projects

Why Us?

Advantages you get

Solutions Driven Approach

Through the years we approach all our projects by doing everything from our client's perspective first. That customer-first approach simplifies everything across our technical, creative, devOPS teams and client services because customer goals and success metrics are the centerpiece.

Agreement

We sign a legitimate agreement beforehand, covering all the details about the project, pricing, timelines and every major and minor detail. Once the project is commisioned we agree on annual maintenance and service level scope o ensure continuty and cut maintenace costs.

Dedicated Project Manager

We assign a dedicated project manager right after you get on board and you get asssisted throughout your project implementation journey from start to finish. Our PMs are vastly experienced in providing consultation and advise on ICT, Creative Design & Project Management.
